

Fishing Fleet Project

Terminal Capurro, Montevideo, Uruguay

Application
Special Applications

Type
V Fenders

Date 2024

Reference 1050

A CLOSER LOOK AT THE CASE

Nestled on the northern shores of Montevideo Bay, the Port of Montevideo stands as a vital artery in Uruguay's economy and as a major player in South American maritime trade. The port has experienced rapid and consistent growth, with the development of **Terminal Capurro, a commercial fishing terminal**. This terminal - with capacity for 50 fishing vessels - **supports operations for the national and foreign fishing fleets** that use the Port of Montevideo as a **base of operations and for the transshipment of high-value cargo**.

The contractor has commissioned ShibataFenderTeam to equip the **1000-meter-long new quay with maritime fenders**. Our coordinated teams – sales, engineering, production, and logistics – have designed and delivered customized solutions.

Project Scope

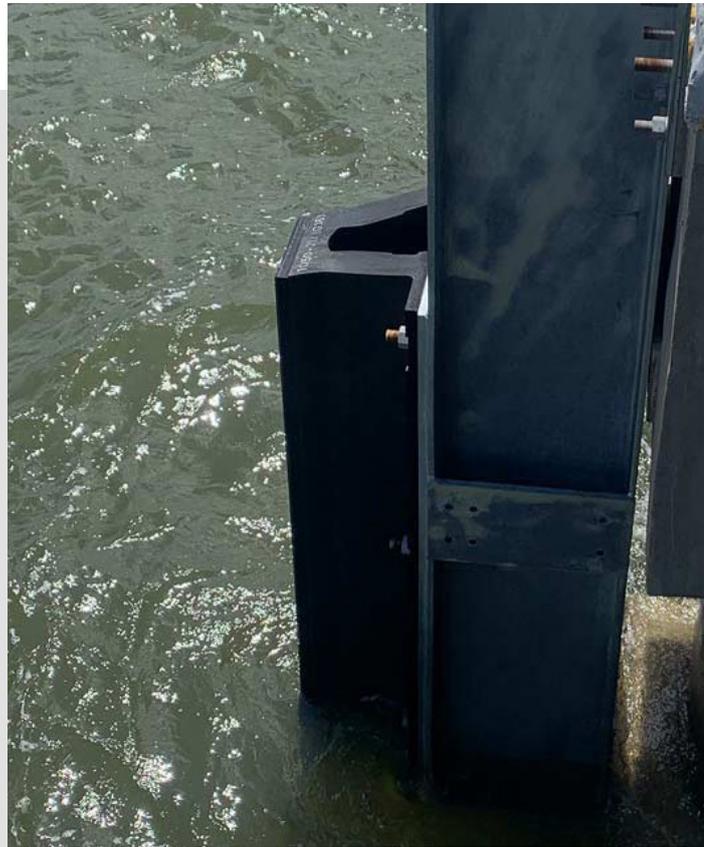

- ▶ 236 Extruded Fenders (DD 200x200x1000 mm)
- ▶ 125 V Fenders (SX-P 1000X3000 mm)
- ▶ 125 T-Head bollards with a 50t capacity

CHALLENGE AND SOLUTION

The **fender sizes have been specially optimized to suit the diverse fishing vessels** calling at the port, ranging from **41 to 115 meters in length**.

Another challenge came with the production of a large quantity of the pieces within a limited timeframe.

Through the **well-coordinated efforts of our teams**, we successfully managed to meet the demand without compromising on the **quality, effectiveness, and safety**.

Terminal Capurro | Montevideo | Uruguay

At ShibataFenderTeam, we take pride on our capacity to **execute diverse projects of all types**, from safely accommodating the large cargo vessels to managing an entire fishing fleet. The development of the Capurro fishing terminal perfectly exemplifies our design approach and flexibility.

The Capurro Terminal supports the national and foreign fishing fleets and is used as a base of operations for the transshipment of high-value cargo. Explore more SFT Case Studies or Contact Your Nearest Office.
