

Pile Fenders.

Characteristics

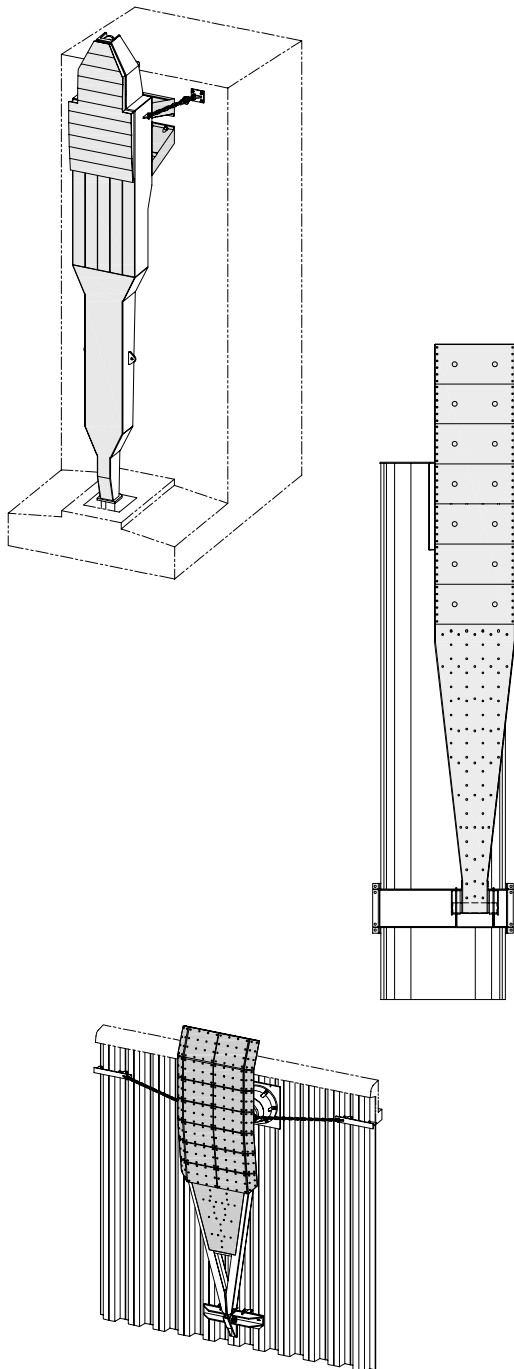

- ▶ Single ship / panel contact design
- ▶ Potential savings in substructures with existing quay walls
- ▶ Can cope with high impact levels and low deck levels

Applications

- ▶ Container & Bulk Terminals
- ▶ Oil & Gas Terminals
- ▶ Ferry & RoRo Terminals
- ▶ Terminals with sheet pile walls or pile structures with small concrete capping beams

Pile Fenders are highly customized systems. Therefore, no standard dimensions and values can be provided. Please contact us for detailed information, calculations and assistance for the design.
